	BFR_BRO_CST_NOT_0010 Maintenance at FLiDAR buoy E26	Revision	V01

## Notice to Mariners

### 1. Broadshore OWF Floating LiDAR buoy E26

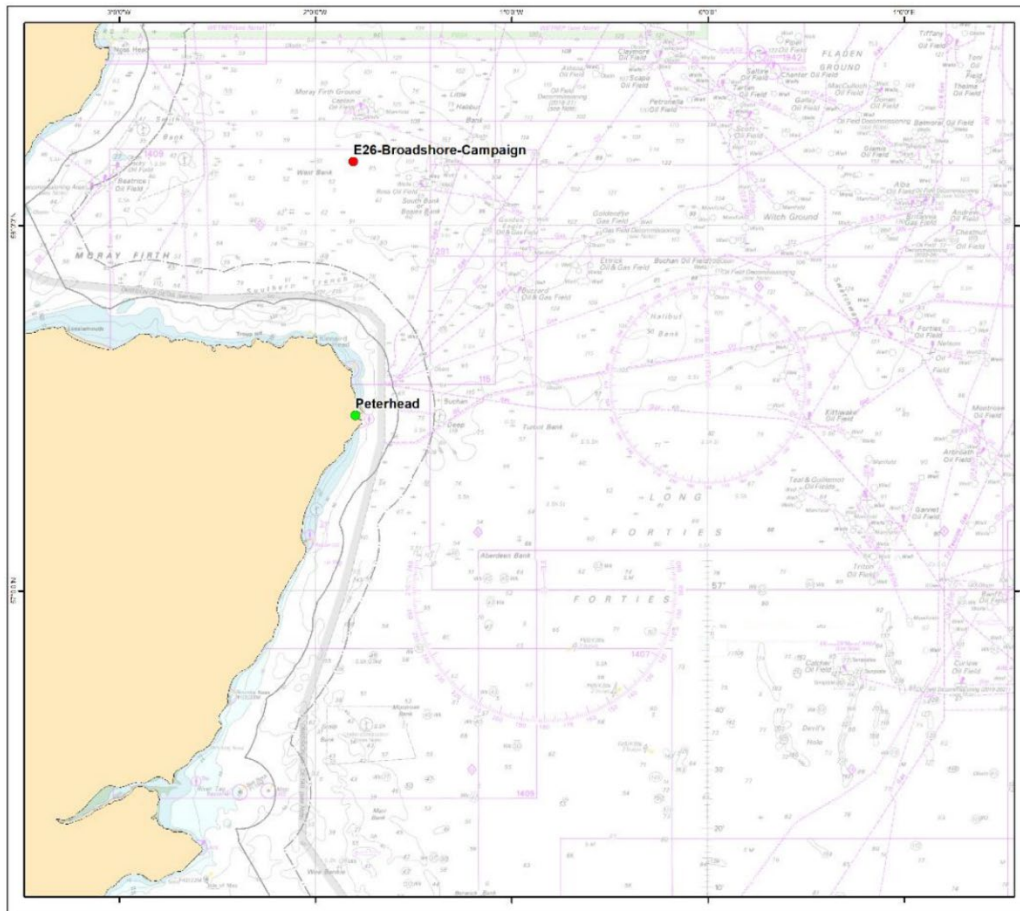

Please be advised that EOLOS intends to undertake preventive maintenance works at the Broadshore OWF Floating LiDAR buoy E26. The works are expected to take place between 31<sup>st</sup> July to 14<sup>th</sup> August, subject to weather conditions, with a total duration of up to 3 days (including recovery, maintenance on deck, and redeployment).

The Broadshore FLiDAR buoy E26 will remain in the Broadshore Offshore Wind Farm site until April 2025.

Further details on the buoy location and vessel to be used in the works are provided below.

*Table 1: Broadshore FLiDAR E26 Coordinates*

Coordinates WGS84 (Degrees Decimal Minutes)		
	Latitude	Longitude
Broadshore FLiDAR E26 Location	58°10.353' N	001° 48.406' W

#### 4. General safety advice

Please be aware that, during the activities, by virtue of its mode of operation the vessel will be Restricted in her Ability to Manoeuvre (RAM) as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972, Rule 3). Masters of vessels are therefore requested to maintain their vessels and gears at a minimum safe passing distance from the vessel of 500 metres when it is undertaking work and showing the appropriate shapes and lights in accordance with COLREGs Rule 27.

#### 5. Contact Details

The following contact can provide more information if required. Please note that specific queries can also be addressed to the relevant vessel or shore-based representative.
